

**CALL FOR APPLICATION:**  
**2022 SUMMER SCHOOL**  
**In Applied Social Science Research Methods**

Dear All,

We are delighted to announce that the registration is open for the **2022 Summer School in Applied Social Science Research Methods**. The program will be **held online during July 2-31, 2022**. The program is jointly organized by the Center for Data and Urban Science at Shanghai University and the Center for Applied Social and Economic Research at NYU Shanghai. The [Foundational Courses](#) (taught in Chinese) will be organized by CENDUS at Shanghai University and the [Advanced Courses](#) (taught in English) will be operated by CASER at NYU Shanghai.

The Summer School aims to promote the development of quantitative research methods and facilitate the talent training in social science research. Participants will gain critical understanding of key approaches to conducting social science research, develop capability on applying social science research methods and gain access to intensive training and unique networking opportunities.

**The List of Courses will include:**

Foundational Courses

- Applied Regression Analysis
- Categorical Data Analysis

Advanced Courses

- Introduction to Computational Social Science
- Spatial Data Analysis in Social Sciences
- Introduction to Applied Bayesian Regression Analysis
